

# Afghanistan community radio stations

## Estimated reach and primary broadcast language

### Station's primary broadcasting language

- Dari / Farsi
- Other
- Pashto
- Unknown

Primary language of broadcast was self-reported through an online survey conducted with community radio stations throughout Afghanistan. Each polygon represents the approximate area that can receive that particular broadcast. These polygons were estimated using self-reported tower height and transmitter strength figures, combined with a digital elevation model to produce line of sight area estimates.

Translators without Borders. March 2021.
