

TWB welcomes Semantix and TransPerfect in joint Sapphire sponsorship

Garden City, ID, USA, April 5, 2022 – Translators without Borders (TWB), part of [CLEAR Global](#), is delighted to announce that Semantix and TransPerfect are supporting the nonprofit with a joint Sapphire sponsorship.

Semantix and TransPerfect provide multilingual language technology and services worldwide. Their partnership and support is of tremendous importance for CLEAR Global and the TWB community as they grow in reach and ambition. The organizations share an interest and expertise in building communications solutions with language technologies based on data and artificial intelligence. With the support of industry leaders, CLEAR Global's teams will work more efficiently and effectively to help bring more people into vital global conversations that impact their lives.

This new Sapphire sponsorship agreement has been recently introduced for entities committed to furthering the organization's work and mission, to help people get vital information and be heard, whatever language they speak. [Find out more about our sponsorship options, and apply to join on our website.](#)

"We're very excited and proud that more and more companies are recognizing the value of our organization, and are willing to contribute to such a great extent," said Aimee Ansari, CEO of CLEAR Global. "With more Sapphire sponsors, we'll be able to act more quickly, using additional resources to scale our language technology solutions, and fund local research projects that will give us the data to build communication channels adapted to local contexts and applicable globally."

About Translators without Borders/CLEAR Global

Translators without Borders (TWB) is a global community of over 80,000 translators and language specialists offering language services to humanitarian and development organizations globally.

TWB is part of CLEAR Global, a US-based nonprofit that also comprises CLEAR Tech and CLEAR Insights. CLEAR Global helps people get vital information and be heard, whatever language they speak. We accomplish this through innovative global research and programs, language technology, language service platforms, an experienced, professional staff, and a community of over 80,000 linguists in 148 countries.
